Williamson county had been taken from his home, by men in disguise, severely whipped, and had disappeared. Mr. F. M. Lavender, the Sheriff of Wiliamson county was in the city yesterday. Gov. Senter called on him for a statement of the facts re-arding the report. It appear- from the statement of Lavender and other citizens, that the said Nesbitt was one of the census takers of Williamson, and while taking the census made observaions for taking some thing not laid down in the regulations of census takers. While plying his vocation, he visited the house of Jas. Shelly, a one-legged soldier, living in the 2d district, and finding his smoke house insecurely provided against the wiles of the rogue, he decaded to pay him a second visit. At night he returned and relieved Mr. S. of bout 100 pounds of bacon. At the No-

vember term of the court the grand jury found a true bill against Nesbitt for grand larceny, upon which a capies was issued and put in the hands of the Sheriff for his pprehension. Court being in session, the heriff deputized Wm. F. Bingham to make the airest. Nesbitt was found in the the officer. Bingham placed him in the care of two guards to take to Franklin, while he should summon the witnesses, as a hearing of the case was expected without Bills Lading, Business Cards, and were jaded and tired. They fell asleep, eral parties skulking about the locality of

vigilance of the officers of the law. The reported Ku-Klux outrige in this particular case, no doubt, originated with Nesbitt himself, who, in order to shield his own crime, was over-anxious to circulate mething damaging to the citizens of the eighborhood. It is fortunate, perhaps, for Nesbitt that no such organization as the Ku-Klux exists, for if the so-called chostly clan were disposed to wreak veneance upon any one, it would be upon the ndividual who would steal the last pound f bacon belonging to a poor crippled

A New Commerce with the South. The Iron Mountain Railroad has carried car loads of iron ore from its road to Chat tanoega, Tenn. The rolling mills at that point having made a list of this ore for mixing purposes are now ordering direct, and will in the near future take considerable quantities of the product of the Iron We learn, says the St. Louis Republic

that the Iron Mountain road is also taking considerable chantities of Lilinois coal for distribution at interior points in the South, The Egyptian Cotton Crop. We extract the following from Watts' & Co. s Liverpool circular, Nov. 11: From Egypt the crop accounts have for

These fogs may again occur this month, and there may be no nerease in the crop; but from the fact that Egyptian cotton has recently been pressed to for sale in this market, it looks as if the copular estimate of an increase of 50,000 ales this season might prove correct.

Hogs and Pork Packing Items. The St. Louis Republican of the 5th nst , in its review of the provision market, says: Receipts at this point are greatly below

and go far to establish the fact that farmers be the distribution of the preparation so well named Magic Arnica Limment. Two of School Books used in city, country and prices, neglecting St. Louis and seeking prices, neglecting St. Louis and seeking those markets which offer greater inducements. Packers and their friends, in our es imation, have acted from a wrong stand point. By refusing to pay at the opening of the season prices prevailing elsewhere, they have driven hogs off, and admitting that there is a large excess in the country, can only regain the trade by paying up and meeting competition—the only way to make a market a good one is to pay liberal prices, as high as the highest, and sell products cheaply.

The market closed Saturday unsettled with no hogs in the pens, and a feeling of dissatisfaction on the part of buyers, who are disappointed in the fact that St. Louis, go to the Live Tinware and Stove the fourth city in the Union in point of population, is running down in this trade, whilst others are about keeping up to the

average of previous years, or at any rate falling but little short of last season. The deliveries of hogs thus far at the principal points do not encourage the idea of a large crep, whilst the small business doing in the country towns indicates a scarcity of hogs. A want of confidence on the part of country operators, or a determination on the part of farmers to hold off-either contingency is not favorable to a heavy winter's slaughter, and may eventuate to the disappointment of buyers in a material advance in pricest. The Evansville Journal of Saturday 1.75@2,25; Highwines 1,07. Hogs, thus far, have exceeded the ex-

ssed, to be much heavier than their external appearance would indicate, a fact that is very much to the advantage of those who kill hogs and take the entrail fat for well informed gentlemen say that, ac cording to the supply of this year, the price should not be higher than 5c gross in order to be in proportion to the price of

The market remains firm at 6c for good everage hogs, and 6 to in some quarters for Shippers are suffering to a considerable extent from death by suffocation of their hogs while being transported in the cars. This is generally owing to the extreme leshy condition of the animals. It is no iceable that hogs this year average very large, and are extremely fat. In two loads shipped by rail to Cincinnati last week, 14 ogs, averaging 400 lbs cach, died, and it common when unloading here to find ome dead ones. These dead hogs are always "tanked" for the grease, and the fearful thought oozes up, do they ever 'pan out" as lard?

The Indianapolis Journal, of the

late, says:

The Crawfordsville Journal says; Messrs. Kelsey & Craig last week bought of Mr. Sam. Busenbark, living about two miles from this city, 27 hogs, whose aver age weight was 528 lbs. These are th ogs Mr. Busenbark was offered 9c a 1b for September, at which time they weighed a little over 300. He sold for 5 c. A correspondent of the Dayton Journal writing from Circleville, Nov. 28, gives the result of experiments in fattening hogs in Washington township: J. C. Watkins' hog, weighing 819 bs, a

gain of 87 lbs, nearly 3 lbs a day, making a gain in ninety days of 288 lbs. This was accounted good. Col. Stansell's hog weighed 857 ms, a gain of 73 ms, or the in ninety days; accounted better. I Bradstreet's hog weighed 797 pounds, a gain of 136 pounds, continuin take his regular supply of pounds a day, and making a net gain in the ninety days of 421 pounds. This was accounted best. These hogs were all about 17 months old when first weighed, and have been fed on corn and meal slops. The sire of the Bradstreet pig, owned and fed by J. Allen Watkins, weighed on the 26th inst, 966 pounds. They are of the Poland and big China breed. Their owners expect to feed at least 30 days longer, when they will challenge comparison with competitors in heavy weights of any breed, Butler county notwithstanding. A Chester white pig of the same age, fed by Charles Campbell, weighe 1 on the same date 727 pounds. 819, 757, 797, 966, 727 makes goodly average, to say the least of it.

The Umpire is in port, and departs to-day for Cairo, with Capt. John Cartwright in command, and John Massengale in the with but few changes in the quotations The most important change to-day was an advance in Gardner's prints to 10 cents by a leading jobbing house, at which controls them. Brown and bleached shirtings and sheetings are in ample supply, and are relatively selling at low enough rates, as are Mous Delains, but there are a variety The many friends of Rezin Bell, for merly a citizen of this place, and a well-known Cumberland river pilot, will regret

New York Money Market, New Your, Dec. 6.-The President's message and the report of the Secretary of the Treasury created very little talk in financial circles, and produced scarcely any fluctuations in the different markets Wall street. They are well received as conservative in tone and in no manner calculated to disturb the markets. The gold market was dull; opening at 110%, and advanced to 110%. The rates for carrying were flat@2 ₹ cent, and for borrow-ing 2 per cent. U. S. bonds dull, and rangeed 1 per cent. lower. Money easier to-day at 6 per cent. State easier to-day at 6 per cent. The gold room was again without quotations, securities in the London cable being em-ployed in the transmission of the President's message and reports?
